Assignment
=====
```

```
1. How to add comments in SAS ? Explain it using SAS program?
```

```
*/
```

```
/* SOLUTION */
```

```
/* To add comments in SAS or to comment a line of code:
```

```
--- type '/*' to begin/open the comment
```

```
--- then add the comments
```

```
--- type '*' '/' to end/close the comment.
```

```
/* SAS program example to add comments */
```

```
data work.data1; /* This is a SAS comment. */
```

```
a = 10; /* Here we are assigning value 10 to variable 'a' */
```

```
run;
```

OUTPUT:

The screenshot displays the SAS Studio web interface. The left sidebar shows the 'Server Files and Folders' tree, with 'my_shared_file_links' highlighted. The main panel shows the 'all_assignments.sas' file with the 'LOG' tab selected. The log displays the execution of a SAS program that creates a dataset 'work.data1' with one observation and one variable 'a'.
